

BEAREE Products

NTN High Performance Multi-Purpose Engineering Plastics

High performance sliding bearings, mechanical parts and materials use state-of-the-art engineering plastics.

Products of NTN Engineering Plastics Corporation can be purchased from NTN Corporation and NTN Bearing Corporation. Contact our nearest branch office, sales division or representatives.

Material Grades of NTN Engineering Plastics 6

6 ~ 8

Series of standard sliding bearings 9
 Boundary dimensions of AR and ARF 10
 Boundary dimensions of BR and TW 11
 Boundary dimensions of ML 12
 Boundary dimensions of MLC 14
 Boundary dimensions of MLCF 16
 Boundary dimensions of MLCW 16

9 ~ 17

Material standard dimensions 18
 Sheet materials 19
 Rod materials 20
 Pipe materials 21

18 ~ 21

4-1 Sliding materials for general purpose 22
 4-2 Sliding materials for soft mating materials 23
 4-3 Sliding materials for use in water or chemicals 24
 4-4 Materials for food processing equipment 25
 4-5 Rubber with sliding capability 26
 4-6 NBR rubber with sliding capability : BEAREE ER3200 27
 4-7 Sliding materials with electrical conductivity
 (Preventing electrostatic charges) 28
 4-8 Sliding materials for high contact pressures 29

4- 9 Sliding materials for use in machine tools : BEAREE FL 3305 ... 30
 4-10 Plastics materials for gears 31
 4-11 Material for separating pins 31
 4-12 Sliding materials for the guide roller 32
 4-13 Seal materials for sliding applications 33
 4-14 Sound damping material for curtain walls 34
 4-15 Sliding materials for bridges and anti-earthquake structures ... 35
 4-16 Compound products 36
 4-17 Coating materials 37

22 ~ 37

5-1 Features of grades and typical characteristic values 38
 5-2 Chemical characteristics 45

38 ~ 45

6-1 Selection of bearing material (PV value) 46
 6-2 Estimation of wear 46
 6-3 Fits and clearance 47
 6-4 Handling 49

46 ~ 49

7-1 Design guideline for sliding performance parts 50
 7-2 Temperature and allowable area pressure 51
 7-3 Friction coefficient 52
 7-4 Specific wear ratio 53
 7-5 Thermal expansion factor 54
 7-6 Test data 55

50 ~ 57

58 ~ 63

Confirmation sheet of conditions for use can be found on the last page for your convenience.
